

LIST OF TABLES

Table 1.	Optimal Headwater Stage for Project Canals.....	13
Table 2.	Pulse Release Schedules for the St. Lucie and Caloosahatchee River Estuaries and Their Effect on Lake Okeechobee Water Levels.....	19
Table 3.	Acreages and Percentages of Land Use by County.....	22
Table 4.	Overall Water Demands for 1990 and 2010.....	24
Table 5.	Estimated and Projected Population in the Upper East Coast Planning Area for 1990 and 2010, respectively.....	25
Table 6.	Threatened, Endangered, and Species of Special Concern in Martin and St. Lucie Counties ^a	36
Table 7.	Annual Surface Water Deficit Estimates for a 1-in-10 Year Drought Condition.....	41
Table 8.	Environmental Requirements for Some Important St. Lucie Estuary Species.....	60
Table 9.	A Partial List of Fish and Shellfish Collected in Oligohaline Waters.....	63
Table 10.	St. Lucie Estuary Juvenile Fish Species that Utilize Low Salinity Habitat during the Dry Season (October to May).....	69
Table 11.	Summary of Flows to the St. Lucie Estuary for the 1965-1995 Period of Simulation for NSM and 1995 Base Case.....	75
Table 12.	Monthly Flows to the St. Lucie Estuary for NSM Conditions.....	82
Table 13.	Monthly Flows to the St. Lucie Estuary for 1995 Base Case Conditions.....	83
Table 14.	Monthly Flows to North Fork as Predicted by the Natural Systems Model.....	86
Table 15.	Monthly Flows to North Fork as Predicted by the 1995 Base Case.....	87
Table 16.	Monthly Flows to South Fork as Predicted by the Natural Systems Model.....	89
Table 17.	Monthly Flows to South Fork as Predicted by the 1995 Base Case.....	90
